

**Are you a new beader?**

## **Would you like to learn a new technique?**

We have many classes to introduce a variety of different beading skills:

- For a **basic stringing** class that introduces confident crimping or bead tip closures, choose Crimping 101 or Vintage Lace Necklace.
- Another introductory stringing class to learn **knotting** between beads is Night Knotters.
- To learn to make a **simple loop with wire** and be introduced to the essential wire tools, take our Earring Workshop (required for most beading projects that include wire).
- Next step, learn to make a secure **wrapped loop with wire** in Multi-Metal Fringe.
- We offer a variety of different bead stitching classes:
  - To learn **Peyote**, consider Flat Peyote Bracelet.
  - Always wanted to learn **Right-Angle Weave**? Check out RAW Beauty Bracelet.
  - If you're interested in learning **Spiral Stitch**, try the Spiral Fantasy-Embellished Tube.
  - New to **Square Stitch**? Our class Crystal Cuff is a perfect introduction.
  - Calypso Ruffle uses both **Netting** and **Right Angle Weave**.
- Interested in playing with wire? The M&M Wire Woven Cuff, The Crocheted Cuff, The Bird's Nest Necklace or a Ringy Dinky class would be a fun introduction.
- Want to get started with **chainmaille**? Check out Byzantine, or Chainmaille With a Twist.
- Learn **loom work** with our Luminous Bracelet.

There are more beginner-appropriate classes offered (even though they may not look "beginner") and classes that you can take to expand on your newly learned skills. Join the fun; you too can make beautiful jewelry with beautiful beads! Questions? Please ask us, we would love to help guide you.
